Dear Valued Rewind Customer,

This letter is to provide assurance that Rewind has a comprehensive cybersecurity insurance policy in place to safeguard our organization against cyber risks and potential security breaches.

Our commitment to protecting sensitive and confidential data has led us to invest in a robust cybersecurity insurance policy. This insurance coverage is designed to provide financial protection and support in the event of cyber incidents, including data breaches, cyberattacks, and related liabilities.

Key details of our cybersecurity insurance policy include:

- **Coverage Scope:** Our policy covers a wide range of cyber risks, including data breach response.
- **Coverage Limits:** We maintain coverage limits consistent with good risk management practice.
- **Response Team:** We have established a dedicated incident response team and protocol to ensure swift and effective action in the event of a cyber incident.
- **Regular Review**: Our cybersecurity insurance policy is subject to regular review and updates to align with evolving cyber threats and industry best practices.

In addition, our compliance with maintaining cybersecurity insurance is audited as part of Rewind's SOC 2 Type 2 audit, and this control can be found in the contents of Rewind's latest SOC 2 report.

We understand the critical importance of cybersecurity in today's digital landscape and are committed to taking all necessary measures to protect our organization and the interests of our customers, partners, and stakeholders.

Regards,

James Ciesielski
CTO & Co-Founder
